**Inspection Guidelines - I understand and agree that my signature below confirms the following:**  
I have not bred, trained or housed the above dog and I am not a regular hunting partner of the owner of said dog. I have been an active coon hunting participant for at least five years. I am familiar with and can identify the above criteria for evaluating working coonhounds. On a given evening, I may not later have a dog I own or handle inspected by any person who previously accompanied me to the woods. I was witness to this evaluation and the information contained above is true and accurate to the best of my ability (misrepresentation punishable by UKC sanctions).

Inspector's Signature: \_\_\_\_\_

Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip Code: \_\_\_\_\_

There is no restriction as to the number of people who may accompany an evaluation, except in cases where it will jeopardize permission of the guide.

1. Dogs must be free cast to search for wild game. Evaluations may not be done:
  - A. in enclosures
  - B. off feeders
  - C. on game seen crossing road
2. Dogs shall be hunted for one hour. If the dog is trailing as time runs out, hunting time may be extended for an additional 15 minutes if the dog has not completed the requirements for a pass during the hour. Dogs shall be picked up prior to completion of the hour for having committed two of the listed standard faults or the same standard fault on two separate occasions.
3. Dogs shall either pass or fail the evaluation. A dog will be awarded a pass for satisfying each of the Standard Requirements on the same track, while hunting for one hour, without committing two Standard Faults.
4. Requirements Defined
  - A. Went Hunting - Dog must go hunting alone and search for track. Hunters may proceed slowly in the direction they wish to hunt but are not to walk a dog that will not go hunting without first considering it one fault.
  - B. Open on Track - Dogs must open on track at least every 8 minutes. Dogs that tree without first opening on track will not be penalized, nor will they receive a pass on that track for the open trailing requirement.
  - C. Treed & Stay Treed - Once it is determined that the dog has settled on a tree, dog must be allowed to tree for a period of five minutes before hunters arrive.
  - D. Coon Seen - A handler may use as much of his hunting time as he wishes (within reason) to search a tree. A dog may receive credit if the coon is found in a tree not more than one tree away where a coon could have legitimately crossed over. At least one of the inspectors must see the coon.
5. Faults Defined
  - A. Off Game - Dogs will receive a fault for running, treeing, baying or catching off game. Any animal other than a coon will be considered off game. Handlers will be required to use their one hour hunting time to recover dogs running fast game.
  - B. Slick Tree - Dog will receive a fault for treeing on a tree where it is obvious there is no coon.
  - C. Quit Track - When it's obvious that a dog has quit a track that he was open on and attempting to work he will be faulted. Failure to open for 8 minutes will be considered quitting.
  - D. Handling Issues - If dog cannot be caught to be handled at tree, truck or in the woods, it shall receive a fault. If the dog bites any participant, it shall receive a fault.
  - E. Leaving Tree/Milling Around - Inspectors should give plenty of leniency in regard to treeing style. However, dogs that leave tree will be faulted as will dogs that are off the tree showing a lack of serious interest in treeing.
  - F. Failed to Hunt - Dogs are required to make an honest effort to go hunting alone. Failure to do so will result in a fault.
6. Owner / Handler Sportsmanship Disqualification - Inspectors may be asked questions regarding their evaluation in the field. If at any time the tone gets confrontational, inspectors are instructed to immediately fail the dog. Should a handler disagree with an evaluation, they may submit a written explanation of their disagreement to UKC within 7 days. UKC will review prior to recording evaluation.
7. Electronic Devices Prohibited. Training collar may be worn but transmitter must be left at vehicle. No electronic squallers. Tracking collars are permitted and there are no restrictions in using them. No other electronic devices besides a hunting light or thermal imaging device may be used.
8. Taking Game Prohibited. Individuals found guilty of taking any game or damaging any dens or trees will be dealt with under the Inherent Rights and Powers of United Kennel Club. Additionally, state and local laws must always be followed.
9. Inspectors. It is not permissible for individuals to inspect each other's dogs on a given night.
10. Assistance. Individuals needing assistance may utilize personal transportation during a hunt test.
